

Digital Designer

We are currently recruiting a Digital Designer to join our team. As the successful candidate you will have a dynamic approach with exceptional web and UX design skills.

Reporting to the Operations Director, you will have freedom to work directly with clients on varied projects (learning portals, e-learning programmes, application front end user interfaces, product simulations and game-based learning applications), whilst working with a close-knit team of instructional designers, design professionals and web application developers.

Essential Criteria:

- 3rd level IT or Multi-media qualification or equivalent 5+ years relevant experience (relevance appraisal at the discretion of Aurion Learning).
- Minimum 2 years' experience in IT, Graphic Design or Digital Learning employment.
- Proficient in Adobe Illustrator & Photoshop.
- Sound knowledge of the following languages/technologies (to be tested during recruitment process):
 - HTML5
 - CSS
 - JavaScript & jQuery
- Version control experience (GIT, SVN or SharePoint).

Desirable Criteria:

- Experience of working in an Agile delivery team (SCRUM or Kanban).
- Experience of eAuthoring tools: Adobe Captivate / Articulate Storyline.
- Experience of Bootstrap / responsive design.
- Working Knowledge of Umbraco 7 CMS / WordPress.
- Experience in developing cross platform resources for desktop and mobile platforms.

- Experience of ASP.net projects
- Visual Studio

Location: Belfast

Salary: £25,000 + depending upon experience.

Closing date: 5pm Friday November 2017

To apply for this role, please send a cover letter outlining relevant skills and experience, and a detailed curriculum vitae to info@aurionlearning.com.
