

Front End Developer

We are currently recruiting a Front End Developer to join our team. As the successful candidate you will have a dynamic approach with exceptional Front End web development skills.

Reporting to the Technical Lead, you will work with UX Designers and play an integral role between the instructional design and graphic designers within our existing talented technical development team on varied client projects including:

- learning portals
- eLearning programmes
- application user interfaces
- product simulations
- game-based learning applications

Essential Criteria:

- Practical experience using the Bootstrap framework v3 and v4
- Sound knowledge of the following languages:
 - HTML5, CSS and SASS
 - JavaScript frameworks (e.g. Angular, React, Vue.js or equivalent)
- A working knowledge of build automation using Grunt, Gulp or equivalent
- Experience in developing cross platform resources for desktop and mobile platforms
- Version control experience (e.g. GIT or SVN)
- 3 years' experience in frontend development

Desirable Criteria:

- Experience of working in an Agile delivery team (SCRUM or Kanban)
- Working Knowledge of Umbraco 7 CMS
- Experience of ASP.net projects and familiarity of Razor
- Experience using Visual Studio

- Experience using Adobe Creative Suite (e.g. Photoshop and Adobe XD)

Location: Belfast

Salary: Negotiable, depending upon experience.

We offer continuous professional development opportunities and a range of other benefits including a contributory pension scheme and health plan.

To apply for this role, please email your CV to hello@aurionlearning.com
